

USWATERMAKER

Island Explorer Series

The **USWATERMAKER** Island Explorer Series is an economical modular unit designed for hard to fit locations on powerboats and sailing vessels.

USWATERMAKER utilizes a 316SS pressure regulating valve, powder coated aluminum control panel, all stainless steel fittings, and glycerin filled pressure gauge. The Island Explorer Series offers flexibility in installation as well. Ask how!

Standard equipment includes:

- * Pre-filtration
- * CAT PUMPS® 316SS Pump Head
- * Fiberglass pressure vessel(s),
- * Spiral wound membranes,
with three-year pro-rated warranty
- * Manual fresh water flush system
- * Hand held digital tester
- * Magnetic drive boost pump

AVAILABLE CAPACITIES: 500 – 1500 GPD

AVAILABLE VOLTAGE: 115/230VAC

We have been building quality watermaker for more than 30 years. We use industry standard parts for ease of service throughout the world.
